Dear Resident:

This year's *River Valley Metro* is the result of not only our thoughts and opinions, but yours as well. For many of the improvements and additions in this year's edition came from you, as interested users of *The River Valley Metro.*

With the expanded yellow page section, the new numerical criss-cross section and our greatly expanded coupon section with it's "Gold & Silver Sweepstakes," we feel we have taken steps to bring you a better, more useful and usable telephone directory.

long distance dialing information

long distance info

DIALING COSTS THE LEAST

When you dial long distance calls yourself and speak with anyone who answers, the rates are lower. One minute is the initial period.

To place a direct-dialed call. . .

If you are within the 501 area, dial

1 + phone number

If you are outside the 501 area, dial

1 + area code + phone number

CREDIT FOR POOR CONNECTIONS OR WRONG NUMBERS

When you have dialed a long distance phone call and have reached a wrong number, have had a poor connection or are cut off, hang up and dial **"0"** (Operator) immediately. This is so the operator can arrange for the proper credit after you have explained what had happened. The faster you report your problem, the easier it is to give you credit.

CALLING CARD (credit card) CALLS COST MORE

You can place long distance calls economically and have them charged to your telephone bill if you have a Calling Card (credit card). One minute is the initial period for a Calling Card call.

You may obtain a Calling Card from your Service Representative.

From Rotary Dial phones. . .

If you are within the 501 area, dial

0 + phone number

If you are outside the 501 area, dial

0 + area code + phone number

Tell your Operator that you are placing a Calling Card call and give your card number when he/she comes on the line.

From Touch-Tone® phones. . .

If you are within the 501 area, dial

0 + area code + phone number (wait for tone) **+ calling card number**

After you have dialed the number you want, then you will hear a special tone; key in your Calling Card number immediately.

OPERATOR-ASSISTED CALLS COST THE MOST

Calls that you dial yourself do not cost as much as those calls that require special handling. One minute is the minimum charge that applies at all times to places outside of Florida.

To place an Operator-assisted call. . .

If you are within the 501 area, dial

0 + phone number

If you are outside the 501 area, dial

TORNADO SAFETY RULES

TORNADO WATCH - means tornadoes are to be expected to develop.

TORNADO WARNING - means a tornado has been sighted or indicated on radar.

WHEN A TORNADO WATCH IS ANNOUNCED:

1. Keep your radio on and listen for the latest Weather Service warnings and advisories. If power fails, use portable battery radio or your car radio.

2. Be prepared to move to shelter if necessary. Keep in mind most tornadoes come from a Southwesterly direction.

WHEN A TORNADO WARNING IS ANNOUNCED:

1. TAKE COVER IMMEDIATELY.

2. If your home has no basement, take cover under heavy furniture on the ground floor in the center part of the house, or in a small room on the ground floor that is away from outside walls and windows. (As a last resort, go outside to a nearby ditch, excavation, culvert or ravine.)

3. Doors and windows on the sides of your house away from the tornado may be left open to help reduce damage to the building, but stay away from them to avoid flying debris.

4. Do not remain in a trailer or a mobile home if a tornado is approaching. Take cover elsewhere.

5. Store all loose objects that can be blown around (trash cans, etc.).

6. If advised that you are likely to be in the path of a tornado, and if time permits, electricity and fuel lines should be cut off. (LOCAL OFFICIALS NOTE: Before making announcements on shutting gas valves, check local gas company policy.)

7. If you are outside in open country, drive away from the tornado's path at a right angle to it. If there isn't time to do this — or if you are walking — take cover and lie flat in the nearest depression, such as a ditch, culvert, excavation or ravine.

The National Weather Service Issues Severe Weather Warnings to the Public Over Radio and TV Stations.

To know what to do when a tornado is approaching may mean the difference in life or death. If you see any revolving, funnel-shaped clouds on a cloudy day, report them by telephone immediately to the local police department, sheriff's office or Weather Bureau Office. But do not use the phone to get information and advice — depend on radio or TV.

The tornado appears as a rotating, funnel-shaped cloud which extends toward the ground from the base of a thunder cloud. It varies from gray to black in color. The tornado spins like a top and may sound like the roaring of an airplane or locomotive. These small short-lived storms are the most violent of all atmospheric phenomena, and over a small area, the most destructive.

kid tips

Printed below are Safety Tips & Preventative Information to teach your children. As they learn check them off in the box.

Published in cooperation with:

CHILD FIND, INC.

NATIONAL CHILD SAFTY COUNCIL

THE NATIONAL CENTER FOR MISSING & EXPLOITED CHILDREN

Teach your child:

☐ Their full name, address & phone number, including area code.

☐ How to make a long distance phone call by dialing direct, operator assistance & **911.**

☐ Your full name, office address & phone number.

☐ To come home before dark.

☐ To phone home to tell you where they are, especially if they change locations.

☐ To avoid strangers & that a stranger is someone you & they do not know.

☐ That a friend is **not** someone known to them ONLY by sight.

☐ That a friend is someone who is a guest in your home, **not** a person delivering a package or soliciting sales.

☐ To stay with you while shopping & to stay out of parking lots.

☐ If they are being followed by someone in a car or on foot, they should **not** hide in bushes but **run** to other people & light.

☐ Never go to a car, even if an adult is signaling to them.

☐ Adults should not ask children for directions.

☐ To step back rapidly, turning to run in the opposite direction if a stranger approaches them on the street.

☐ Never acknowlege that they are at home alone to a person on the phone or at the door.

☐ To keep all doors locked & never answer the door by opening it when they are home alone.

☐ To talk through a window to anyone delivering a package, and to tell the person to leave the package at the door.

☐ To go places with a friend.

☐ To avoid dark or abandoned places.

☐ Never go into anyone's home without your permission.

☐ That no one has a right to touch them on any part of their body and that they should tell you if someone tries to do so.

☐ To avoid strangers who are waiting around a playground—particularly an adult who wants to play with them and their friends.

☐ To tell you if an adult asks them to keep a secret.

☐ Not to go with, talk to or accept gifts from a stranger.

☐ To use a code word known only to you and the child, changing the code word once it has been used.

☐ If they are waiting for you to pick them up after school and someone else drives up and claims you sent them, to **go back to the school for help.**

☐ That if they are separated from you in a store, not to look for you but instead go to the **nearest checkout** and ask the person at the register for help.

☐ To yell for **"HELP"** if they are in trouble, not just to scream.

☐ If they are grabbed by anyone, to scream **"help," kick, scratch** and attempt to break loose.

☐ To ask anyone who drives them anywhere not to leave them alone in the car but, if they are alone in a car, to put up the car windows leaving finger space between the window glass and the rim, and to lock the doors and stay behind the horn. If a stranger approaches the car, they should **blow the horn** and not stop until help arrives.

FOR DISABLED . . .

☐ Children in wheelchairs should politely refuse unnecessary request to help them.

☐ Respect their reluctance to be with someone, some disabled may not be able to verbalize why.

As a parent:

NEVER . . .

■ let your child go to a public restroom alone.

■ leave your child alone in the car.

■ put your child's name—first, last or nickname—on hats, caps, jackets, bikes, wagons, etc. Remember, a child responds to a first name. A person using that name will automatically not be thought of as a stranger.

■ leave your child in the toy section of a store or wandering in a mall.

■ belittle any fear or concern your child has—real or imaginary.

BUT ALWAYS . . .

■ teach them to avoid strangers.

■ know your child's friends/playmates.

■ be involved in their activities.

■ know where they are at all times.

■ practice with your child ways he/she may walk to and from friends' homes or school.

■ make it clear to your child to whose home he/she may go to play or visit.

■ teach them which homes are **"safe"** to go into near your home when your are not around. Familiarize them with neighborhood programs (if any) where signs may appear in windows or on doors.

■ listen when they tell you that he/she doesn't want to be with someone. Find out the reason.

■ notice if someone pays undue attention to them.

■ encourage parent-child communication.

■ tell your children that if anything happens, you will look for them no matter how long it takes to find them.

& MOST IMPORTANT . . .

■ take a clear sharp photograph of your child (black & white is OK) at least every **SIX MONTHS**, full frontal, profile, facial with any exposed birthmarks, scars, etc.

■ have fingerprinted by local law enforcement agency.

■ keep a copy of the childs dental records.

What Consumers Think of Coupons

Based on interviews conducted among telephone households throughout the United States by Nielsen Clearing House (a division of A.C. Nielsen Company)

80% OF ALL HOUSEHOLDS USE COUPONS

Up from 65% in previous study.

COUPON USAGE HIGH AMONG PRIME DEMOGRAPHICS

Households with income of $15,000+, consumers in the 24-29 age group, and those with 3 or more members.

MANY CONSUMERS ACTIVELY LOOK FOR COUPONS

A fifty-fifty split between consumers who actively look for coupons and those who use them if they happen to run across them

CONSUMERS HAVE POSITIVE ATTITUDE TOWARD COUPONS

Far from being "over-couponed," the great majority of consumers indicate they would like to receive more coupons than they are currently getting.

COUPON USAGE UP SHARPLY

44% of coupon users use more now than a year ago.

COUPONS ARE KEPT UNTIL USED

Most coupon users appear to have an established pattern for saving coupons until they have an occasion to use them.

UNUSED COUPONS ARE PASSED ALONG

1 out of 3 consumers now pass unused coupons on to somebody else.

The College of the Ozarks

CLARKSVILLE, ARKANSAS 72830

Founded by Cumberland Presbyterians as Cane Hill School at Cane Hill, Arkansas in 1834, The College of the Ozarks is within the boundaries of the Synod of the Sun of the Presbyterian Church U.S.A.

The College closed its doors as Cane Hill College in 1891, and the successor, Arkansas Cumberland College, to be located at Clarksville, Arkansas, was established by the Arkansas Synod of the Cumberland Presbyterian Church the same year. The Cumberland Presbyterian Church merged with the Presbyterian Church, U.S.A. in 1906. In 1920 the name of the College was changed to The College of the Ozarks. Notable progress was made under the distinguished leadership of President Wiley Lin Hurie between 1923 and 1949. In 1953 the College was endorsed as the institution of Higher learning of the Synod of Oklahoma-Arkansas of the United Presbyterian Church in the U.S.A.

In 1868, women were first admitted to Cane Hill College. Previously, women had attended the allied school, Cane Hill Female Seminary, which was established in 1840. Two women were graduated from Cane Hill College in 1872.

During World War II, The College of the Ozarks rendered conspicious service, first in training pilots under the National Civil Aeronautics Program and later as a naval training school in elementary electrical and radio material. During a period of fourteen months, primary training was given to more than three thousand men.

On January 1, 1960, the Board of National Missions of the United Presbyterian Church in the U.S.A. assumed ownership and operating responsibility of the College. Since 1973 administrative responsibility and ownership has been invested in an elected Board of Trustees, with the continued spiritual and financial support of the Presbyterian Church U.S.A. and the Synod of the Sun.

The College is in Clarksville, Arkansas, county seat of Johnson County, a town of over 5,000 people. It is in the Arkansas River Valley, 65 miles east of Fort Smith, 105 miles west and north of Little Rock on I-40 and Highway 64. Continental Trailways Bus System serves this area.

Special Learning Center

Meshing tightly with The College of the Ozarks' overall program is the Ben D. Caudle Special Learning Center. Initiated in 1971 as the first program of its kind anywhere, the Learning Center is designed to help college-age students with specific learning disabilities such as dyslexia, dysgraphia, dysorthographia and dyscalculia.

This program excludes the psychiatrically disturbed, the college dropout and the mentally subnormal. It is the College's conviction that the majority of young people with learning disabilities are denied through lack of opportunity, a realization of their potential. The Learning Center attempts to provide these students with an opportunity which can exist only in a college environment geared to meet their individual needs.

The College awards degrees in the following areas of study:

Accounting
Art
Biology
Business Administration
Business Education
Communications
Elementary Education
English
Entrepreneurship

Marketing
Mathematics
Music

TEL MED

TAPE LIBRARY

SPONSORS

Sebastian County Medical Society, Ft. Smith Dental Association, Sparks Regional Medical Center.

WHAT IS TEL-MED?

Tel-Med is a collection of tape-recorded health messages which have been carefully selected to:

- help you remain healthy
- help you recognize early signs of illness
- help you adjust to a serious illness

These tapes are 3 to 5 minutes long and have been written in a straightforward, easy to understand way. Every tape has been carefully studied by a panel of physicians to insure its accuracy.

IF YOU NEED A DOCTOR. . .

Tel-Med is not designed to tell you why you are sick. Only your doctor can do that.

HOW DOES TEL-MED WORK?

It's easy! Just give the operator the number of the tape you wish to hear. (See inside panels for a complete list of tapes.) Let's say you wish to know more about breast cancer. Simply dial the operator and ask for Tape #6: The operator will then play the tape for you which discusses this illness and the steps you can take to recognize it. If you wish to hear the same tape again, or any other tape, call back and the operator will be happy to play it for you.

Orthopaedics is the practice of straightening or correcting skeletal abnormalities whether they are caused by nature or by man. The word Orthopaedic comes to us from the Greek; meaning freely translated, to straighten the crippled child.

ARKANSAS VALLEY BONE & JOINT CLINIC

Orthopaedics is the practice of straightening or correcting skeletal abnormalities whether they are caused by nature or by man. The word Orthopaedic comes to us from the Greek; meaning freely translated, to straighten the crippled child.

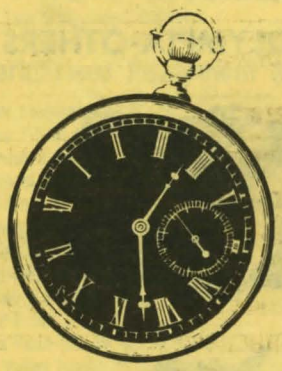
Don't have time to worry about advertising layouts . . . typography . . . graphics . . .
You don't have to!
Media Junction will do it for you!



Media Junction is an art, idea and typesetting service for advertising and promotions. We are the answer to tight-deadlines, and tough to sell customers.

Our powerful promotion graphics set the tone for a series of ads, posters, billboards, newspaper layouts, you name it...

Media Junction is like having your own private creative team of designers, layout professionals, lettering stylists, graphic artists and photographers.

Media Junction is the perfect answer for the business with a tight budget that needs to get the most for their advertising dollar.

Other agencies tend to go for the major accounts and leave the smaller accounts behind. We like to stay in touch with the small business, because with our help...you won't stay small for long.

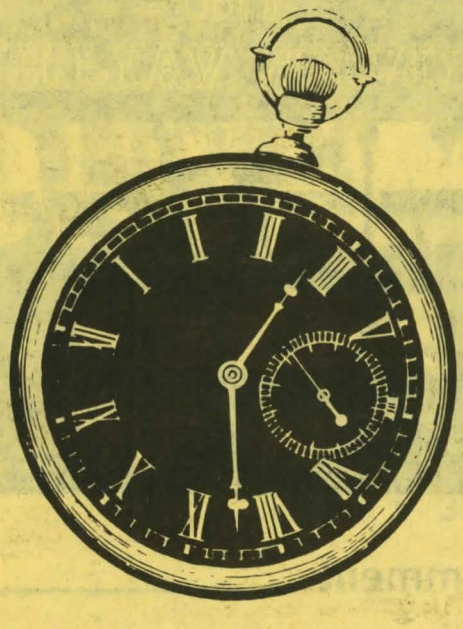
Don't have time to worry about advertising layouts . . . typography . . . graphics . . .



You don't have to! Media Junction will do it for you!

Media Junction is an art, idea and typesetting service for advertising and promotions. We are the answer to tight-deadlines, and tough to sell customers.

Our powerful promotion graphics set the tone for a series of ads, posters, billboards, newspaper layouts, you name it...

Media Junction is like having your own private creative team of designers, layout professionals, lettering stylists, graphic artists and photographers.

Media Junction is the perfect answer for the business with a tight budget that needs to get the most for their advertising dollar.

Other agencies tend to go for the major accounts and leave the smaller accounts behind. We like to stay in touch with the small business, because with our help...you won't stay small for long.

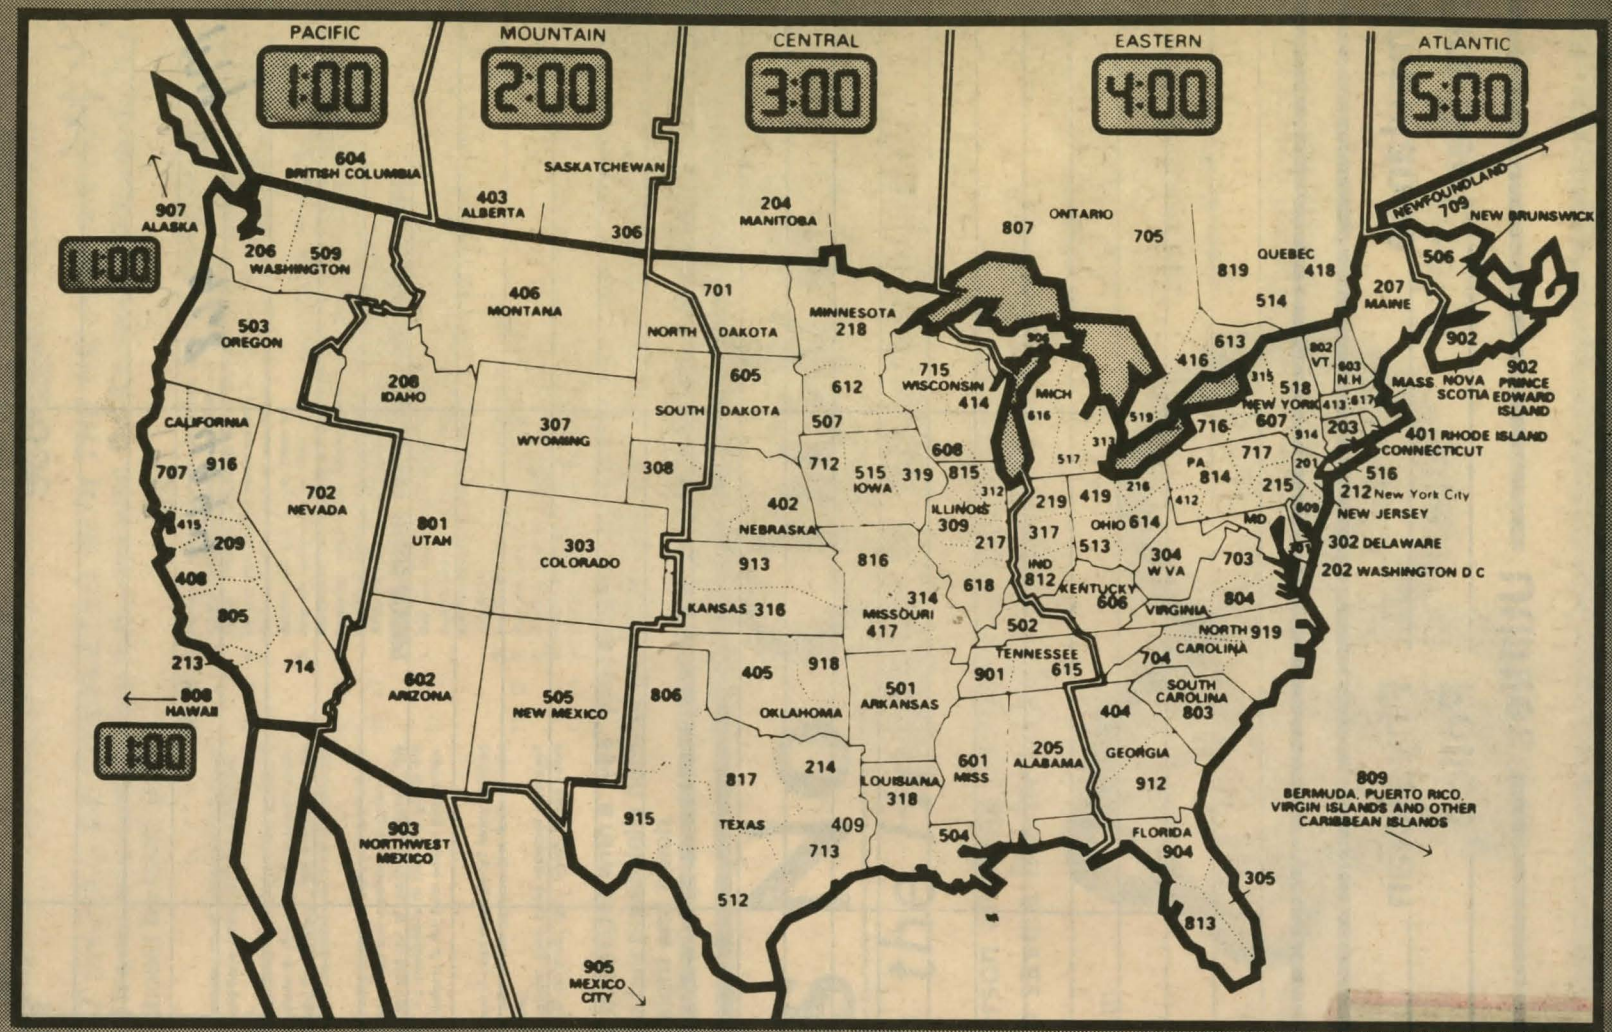
AREA CODES & TIME ZONES



Area codes speed your long distance calls.

For faster long distance calling, the United States and Canada has been divided into more than 100 telephone areas, each identified by a three-figure Area Code. Your Area Code is 904 (see map)—Dial the area code if it is different from the one on the telephone you are using. **Do not dial the area code when it is the same.**-Even on long distance calls you place with the " OPERATOR," the area code will help you get them through faster. Just give the area code (if it's different from your own) and the number you want. For example, on a call to Chicago say: "I want area code 312, 555-2368."—When you ask someone to call you back from another telephone area, include your area code as part of your telephone number.

POISON LOOKOUT CHECKLIST

BROUGHT TO YOU AS A PUBLIC SERVICE BY:

ST. MARY'S HOSPITAL

1808 West Main 968-2841

A HEALTH CARE CENTER OF AMI

THIS CHECKLIST SHOULD BE COMPLETED WITH THE HELP OF AN ADULT.

Is your home poison-proof? If it's not, someone may get hurt—and soon. But it's easy to poison-proof your home. Whatever you answer "no" should be fixed quickly.

POISON-PROOFING THE KITCHEN

	YES	NO
1. Do all harmful products in the cabinets have child resistant caps? Products like furniture polishes, drain cleaners and some oven cleaners should have safety packaging to keep little children from accidentally opening the packages.	☐	☐
2. Are all potentially harmful products in their original containers? There are two dangers if products aren't stored in their original containers. Labels on the original containers often give first-aid information if someone should swallow the product. And if products are stored in containers like drinking glasses or pop bottles, someone may think it is food and swallow it.	☐	☐
3. Are harmful products stored away from food? If harmful products are placed next to food, someone may accidentally get a food or a poison mixed up and swallow the poison.	☐	☐
4. Have all potentially harmful products been put up high and out of reach of children? The best way to prevent poisoning is making sure that it's impossible to find and get at the poisons. Locking all cabinets that hold dangerous products is the best poison prevention.	☐	☐

POISON-PROOF THE BATHROOM

	YES	NO
1. Did you ever stop to think that medicines could poison if used improperly? Many children are poisoned each year by overdoses of aspirin. If aspirin can poison, just think of how many other poisons might be in your medicine cabinet.	☐	☐
2. Do your aspirins and other potentially harmful products have child-resistant closures? Aspirins and most prescription drugs come with child-resistant caps. Check to see yours have them.	☐	☐
3. Have you thrown out all out-of-date prescriptions? As medicines get older, the chemicals inside them can change. So what was once a good medicine may now be a dangerous poison. Flush all old drugs down the toilet. Rinse the container well then discard it.	☐	☐
4. Do you always give medicine only to the person the doctor prescribed it for? The medicine that worked wonders on one person may harm the next. Give drugs only to the person the doctor told you to give them to.	☐	☐
5. Are all medicines in their original containers with the original labels? Prescription medicines may or may not list ingredients. The prescription number on the label will, however, allow rapid identification by the pharmacist of the ingredients whould they not be listed. Without the original label and container, you can't be sure of what you're taking. After all, aspirin looks a lot like poisonous roach tablets.	☐	☐

POISON-PROOF THE GARAGE OR STORAGE AREA

1. Did you know that almost everything in your garage or storage area that can be swallowed is a terrible poison? Violent, horrible reactions occur to people who swallow such everyday substances as charcoal lighter, paint thinner and remover, antifreeze and turpentine.	☐	☐
2. Do all these poisons have child-resistant caps?	☐	☐
3. Are they stored in the original containers?	☐	☐
4. Are the original labels on the containers?	☐	☐
5. Have you made sure that no poisons are stored in drinking glasses or pop bottles?	☐	☐
6. Are all these harmful products locked up and out of sight and reach?	☐	☐

When you can answer all the questions with a "yes" your house is poison-proofed. Then, to make sure your house stays poison-proof, when you buy potentially harmful products make sure they have child-resistant closures and keep these products out of sight and reach.
